

Outdoor solar power charger

What is the best solar power charger for outdoor use?

Our overall winner is the 1 pound, 5 ounce Big Blue 28W USB Solar Charger for most outdoor use. It's a simple, lightweight, and powerful solar power charger that seems to provide a little more power than its competition. It will also provide enough power in direct sunlight to charge multiple small devices for one or two people.

Are portable solar chargers good for camping?

Portable solar chargers balance packability and charging capacity. Solar panels for camping are generally larger than portable models. They also have a higher capacity to convert sunlight into energy. The chart below shows the overall score for each model we tested.

What is the best solar charger for off-grid camping?

100 watts or more: These are the largest solar chargers that you can still pack away to move. They're the best energy-intensive devices and have fast charging speeds to keep your large battery banks or power stations full. A 110-watt panel is best for charging a large power station when off-grid camping.

What is a portable solar charger?

A portable solar charger is a lightweight and more compact means of electricity generation compared with other means of mobile energy generation.

Are portable solar chargers a viable way to provide electricity outdoors?

Thanks to efficiency advances and cost decreases in solar cells, portable solar chargers are finally proving to be a viable means of providing electricity outdoors. A backcountry user might carry a smartphone, GoPros, headlamp, tablet, camera, headphones, and PLB or GPS devices.

How many solar chargers are there?

I called in 13 different solar chargers from nine different manufacturers for testing. The main criteria was that it be a portable panel that you can use to charge a small electronic device, like a smartphone or a tablet, without the need for a power bank as an intermediary.
