

Pei Finance installs photovoltaic panels

Does Pei have a solar electric Rebate program?

The Government of PEI Solar Electric Rebate Program makes solar power more affordable than ever before by providing a financial incentive for Island homeowners, farms and businesses to install solar PV panels. Solar incentives will help reduce greenhouse gas emissions and create jobs in PEI's renewable energy sector.

Does Pei have a solar energy incentive program?

Businesses can now use the Federal Tax Provision for Clean Energy Equipment to fully expense their solar system. This means a CCA rate of 100% and the abolishment of the first year rule. There are at least 7 other energy incentive programs available in PEI.

Where can I find information about efficiency Pei?

Visit us at efficiencyPEI at 69 Belvedere Avenue in Charlottetown or at Access PEI in Summerside. Program information is also available at any Access PEI location. efficiencypei@gov.pe.ca

Does Pei have a residential home heating program?

Please note: Finance PEI has recently amended the Residential Home Heating Program for heating only. How much financing is available under this program?

Can a Pei loan be used for a new construction project?

Finance PEI must approve the loan before any work begins on the project. The loan is not available for new construction or for projects already completed. Loans to farms and businesses may exceed \$25,000 (net of rebate); the amount of financing available will be based on the debt servicing capacity of the applicant, and availability of security.

Is there financing available for solar equipment?

There is also financing available to assist with the up-front costs associated with the purchase and installation of solar equipment that can lower energy bills for Islanders through the Energy Efficiency Loan Program for Solar Photovoltaic Equipment (EELP-SERP).
