How does gem track solar projects?

Every solar park is linked to a wiki page on the GEM wiki platform. The tracking tool provides search results by project name, start-up year, operator, owner, country, capacity, and project status. Currently, it includes 5,190 solar projects with a combined capacity of 298.7 GW across 148 countries.

Where are solar PV EPC companies located?

According to the Mercom report, for 10 solar PV EPC companies, the Asia-Pacific (APAC) region made up 52.4% of EPC companies' capacity, followed by the Americas at 42.1% and Europe, the Middle East, and Africa (EMEA) at 5.5%. Here, we have presented the complete list of EPC companies in 2020:

Is Adani solar a good solar PV EPC company?

It is worth mentioning that Adani solar had stood in the sixth rank in the 2019 list while in the 2020's top 10 solar PV EPC company list, it jumped to the first spot among other solar PV EPC developers. Did you know?

When did gem release data?

The most recent release of this data was in June 2024. To learn about the various components of each GEM tracker, read About GEM's Trackers. To receive notifications from this project, please sign up for our mailing list.

How many GW of nonresidential PV systems are installed in the world?

Mainly thanks to strong market growth in China and the United States, they joined the seven integrators that were already in the gigawatt league. In all, the 30 largest EPC providers installed 36 GW of nonresidential PV systems, representing 28% of the global PV market. This is a continued increase from 27% in 2019 and 21% in 2018.
