

Photovoltaic Panel Cleaning Service Commitment

Does Sun service specialists clean solar panels?

Sun Service Specialists DOES NOT use cleaning materials that are hazardous to panel health. Because solar panels have no moving parts, there is very little maintenance -- but solar panel cleaning should be a priority for system owners, as soiling and dirt on your array can definitely lead to lost energy production.

Does professional solar panel cleaning increase energy production?

Researchers at Google's solar panel farm found that energy production doubled after professional cleaning. And after a second cleaning, they found that the energy production had gone up by 36%. At Shine, we are experts in professional solar panel cleaning and promise the best, safest, and most effective way to clean panels.

Does Shine clean solar panels?

Shine's Professional Solar Panel Cleaning Team will evaluate your panels and create the best plan to preserve the longevity of your solar panels. Interested in A Better SHINE on Your Solar Panels?

Why should you use a shine squeegee to clean solar panels?

With all the different factors that play into the correct solar panel cleaning process, it's important to have the best techniques and tools, like the Shine squeegee, to avoid damaging your solar panels. Shine's Professional Solar Panel Cleaning Team will evaluate your panels and create the best plan to preserve the longevity of your solar panels.

How often should solar panels be cleaned?

In most areas of the country, occasional rain is typically enough to naturally and safely keep your solar panels clean and free of debris that could lower their energy production. But a good clean every once in a while can always help maximize your panel's photovoltaic (PV) production no matter where you live.

Are solar panels Dirty?

We love the sunSHINE! Solar panels can be difficult and dangerous to clean, but as the pollen, dust, dirt, and water residue build up on the surface of your solar panels, it decreases their efficiency. Your yearly cost of electricity loss from dirty solar panels can quickly add up to hundreds of dollars.
