What is a solar inverter & how does it work?

The solar inverter is one of the most critical components of your solar energy system. It connects the solar energy system to the battery system to change the energy captured by the solar panels (DC energy) to the power that can be used by your household devices (AC energy).

Can solar panels be repaired?

Yes,solar panels can be repaired depending on the type of damage,but it's typically better to replace the damaged panels. Our Service Department can inspect your system to see whether the fix can happen on-site.

Do all Inverters come with a warranty?

All repaired Inverters come with a 90-day Warranty. Shipping is not covered under Warranty. Please Note: not all Inverters are repairable,in the event that your Inverter is not repairable,we will apply your deposit towards the purchase of a New or Refurbished Inverter when available.
