

Photovoltaic inverter wall canopy

Can I use a canopy with a solar panel?

Canopies are the perfect base for solar panels, allowing you to generate energy and provide shade and shelter at the same time. We have four canopy frames which can be paired with most solar panels. We will work with your solar panel provider to select the most suitable canopy for the panels.

Does a solar canopy pay for itself?

Your solar canopy will pay for itself over the years through the electricity the solar panels generate. Also, with energy bills increasing, the savings you will make on your bills will be greater than before, so now is the perfect time to invest in solar canopy or solar canopy.

Can a roof canopy be used as a solar system?

With a canopy, contractors can use the space from a pergola and a small amount of additional rooftop space to build out a full-sized system. Depending on the size of the canopy, you can use it as either the full project or an add-on for customers that also want solar on their roof.

What can a free-standing solar canopy frame be used for?

Our free-standing solar canopy frames can be used as covered waiting areas, playground canopies, covered walkways, trolley shelters, solar canopies, alfresco dining canopies and much more.
