

Photovoltaic inverter warranty period

How long do inverter warranties last?

Inverter warranties vary by manufacturer and inverter type. String inverters typically come with 10-12 years of warranty coverage, whereas microinverters and power optimizers are often covered for 25 years.

How long is a SolarEdge inverter warranty?

The SolarEdge inverter warranty is extendable to 20 or 25 years, depending on inverter model. We manage a rapid RMA process and generally ship a replacement unit within 48 hours, if the reported defect is eligible for coverage under the Limited Product Warranty.

Do solar inverters come with a warranty?

Most solar energy inverters have a 10- to 25-year warranty. Racking often comes with a 10- to 20-year warranty on material defects. If you add solar storage to your system, most solar batteries come with a separate 5- to 10-year warranty. However, you should always double-check with your manufacturer to confirm the specific terms of their coverage.

Do solar panels have a warranty?

The product warranty replaces your solar panels for free if they malfunction due to material or workmanship defects. The coverage period varies depending on the brand and specific product, but the solar industry standard is 10 years or more. The best warranties offer 25-year coverage, and you can get them from leading brands like Q Cells.
