What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs. They have equally great options for flat roofs and ground mounts, as well.

Can solar panels take a chunk of a roof?

With the proper racks, mounts and installation, your roof will have no trouble handling the load. The main concern is the solar panels catching strong winds and flying off of your roof, taking a chunk of the roof with it. As long as the racks and mounts are installed properly though, this isn't a problem.
