What are the features of ds300 solar post drilling machine?

Features: DS300 is multi-functional solar post drilling machine. 1) It can complete drilling work in different applications, such as in solar power station as solar post pile driver, in highway building as post piling rig. 2) This photovoltaic drilling rig has optional configuration customized for customer's selection.

How to install a solar pole in a rig?

Rig has to work with air compressor together for percussion drilling. In this way, it can make a borehole firstly, then put the pile inside or concreting a pile. When it needs to install the solar pole in more efficiently way and have it stably installed, hammering the pile into ground directly is the best way.
