

# Photovoltaic panel installation cost price table

How much does a solar panel installation cost?

The average cost of a 10.8 kW solar panel installation on EnergySage is \$20,948 after federal tax credits. You'll probably save anywhere from \$28,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.

How much do solar panels cost per watt?

The average cost per watt for solar panels in the U.S. is \$2.84 for residential systems. High-efficiency monocrystalline panels tend to be at the higher end of the price range, but they generate more power with fewer panels--ideal if you have limited roof space.

Why do solar panels cost so much?

The more solar panels you install, the higher the installation cost because the process takes more time and labor. Depending on your location, the sales tax or hourly labor wage may be greater, increasing the total solar cost. Installation is one of the many factors that determine the overall price.

How do I get the best value on solar panels?

Here are some tips to get the best value on solar panels for your home. Get multiple quotes. Receive and compare several quotes for solar to compare the total cost, quality of products and warranty terms. If you find a company you like but their price is higher than another, ask if they will price match.

How much does a solar inverter cost?

Inverter replacement: If your solar system uses a string inverter, it may need to be replaced. String inverters generally last between 10 and 12 years, while solar panels last for 25 years or more. Getting a new string inverter could cost about \$1,500.

What factors affect the cost of solar panel installation?

Installation is one of the many factors that determine the overall price. The factors influencing the average cost of solar panel installation include hard and soft costs. Hard costs include the physical equipment like racking, panels, inverters and batteries.

The below table shows the average solar panel cost by city & size of solar panels installed (DC). The prices in all the below tables include the up-front incentive available for small-scale systems through the Renewable ...
