Should you buy a solar outdoor light?

Why Buy: If you want to dip your toes into the solar outdoor light area without investing a lot of money right away, the Sunnest Stainless Steel Outdoor Solar Lights are your best bet to enjoy that initial experience and get hooked into more solar light solutions. How Do Outdoor Solar Lights Work?

Do outdoor solar lights work?

Outdoor lights work best when they have access to direct sunlight to charge for multiple hours during the day, which is how the manufacturers calculate battery life and runtime. Outdoor solar lights will work on cloudy days or in areas with indirect light, but you might notice that they aren't quite as bright or long-lasting.

Where can I buy brightech outdoor solar lights?

Get the Brightech outdoor solar lights at Amazon, The Home Depot, Target, or Brightech. With three useful modes and almost endless installation options, this four-pack of lights from Aootek offers excellent value for its affordable price.

Where should outdoor solar lights be placed?

To get the best results from your outdoor solar lights, place them where they get 6 to 8 hours of direct sunlight. If they're designed to be wall-mounted, consider placing them up high, so they're closer to the sun.

Are solar-powered outdoor lights waterproof?

Almost all solar-powered outdoor lights are LEDs, with either integrated or replaceable bulbs. Because they are designed for outdoor use, most solar-powered lights offer decent water and weather resistance. The level of resistance varies from light to light; pay close attention to each model's weather resistance rating.
