Will pvpallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

Are solar panel pallets reusable?

Adjustable, collapsible, reusable pallets engineered for solar panels. PVpallet's solar panel pallets, Series X and Series X.L, fit a range of panel sizes. These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

What sizes does pvpallet offer?

Watch the Full Product Demo. PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request.

Does pvpallet test reusable solar panels?

PVpallet does not warrant that all loads will perform the same as lab testing. PVpallet's reusable solar panel pallets can be adjusted to fit a range of panel sizes and are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

Why should you choose pvpallet?

PVpallet helps solar companies reduce waste, streamline operations, and save money through reusable packaging and turnkey logistics solutions. Why choose PVpallet? We're focused on making life easier for everyone in the solar supply chain--from manufacturers and distributors to EPCs and solar installers.

What is the PVpallet Series X?

The PVpallet Series X allows for easier and safer deployment and decommissioning of solar microgrid systems. It also enables the acceptance and management of solar panel donations in a way that wasn't possible before. The fact that these units can be stacked two-high outside significantly increases storage capacity.
