

Photovoltaic panel professional installation contractor

How do I find a solar panel installation contractor?

If none have worked with a professional before, search for solar panel installation contractors near you and check online reviews. You can also contact the Solar Energy Industries Association (SEIA), the national trade association for the solar industry in the U.S., to see if your contractor is a member.

Who is a PV installer?

A PV installer is defined as a person who is directly engaged with the electrical connection and wiring of a photovoltaic system project in a capacity other than as an inspector, management planner, consultant, project designer, contractor or supervisor for the photovoltaic system project

Can a contractor install a solar hot water system?

Licensing (Solar thermal) C-61 - Solar energy systems contractors may assemble and install solar hot water systems in residential and commercial buildings and swimming pools, provided that this shall not include the installation of heat pumps or water heaters.

Do solar installers need a license in Nevada?

Nevada law requires that solar energy system installers be licensed by the Nevada State Contractors Board. Contractors may be licensed under License Classification C-37 (solar contracting), or perform solar work under License Classification C-1 (plumbing and heating) for solar thermal installations. Licensing (PV)

Who should I hire for a solar panel installation?

We recommend hiring an installer certified by the North American Board of Certified Energy Practitioners (NABCEP), which provides quality credential programs for solar panel installation professionals. Also, hire ones who are insured to protect you from liability. Ask your potential hire for any references and reach out to them.

Do you need a certified electrician to install solar panels?

No matter where you live, a member of your solar panel installation company must be a certified electrician to connect your panels to your home and the electric grid. What questions should I ask a solar panel company before hiring? Does your total price include the equipment and labor? How long do you expect the installation process to take?
