

Photovoltaic panel scam case analysis

Are solar panels a scam?

Dissatisfaction with the solar panel industry has been growing steadily over the last half-decade, statistics show. One-star reviews on the industry website Solar Reviews have increased more than 1,000% since 2018, according to NPR. Many companies allegedly participate in fraudulent practices in an attempt to scam homeowners out of their money.

What's happening with solar panel fraud?

One recent case that has sent shockwaves through the industry involves Vision Solar suddenly shutting its doors, and leaving thousands stranded, while one of its lender, Sunlight Financial, filed for bankruptcy on October 30th of this year. Solar panel fraud often begins with breach of contract issues.

Does rooftop solar have a fraud problem?

Rooftop solar has a fraud problem. The industry is working to build back trust. A crew installs a solar array on the roof of a home in Frankfort, Ky., in 2023. PHILADELPHIA -- The solar power industry is booming and that growth helps the world meet its climate goals by replacing fossil fuels.

Who is liable for solar panel fraud?

Solar panel fraud doesn't stop with the companies directly involved; lenders also find themselves liable. Sunlight Financial, Vision Solar's lender, recently declared bankruptcy, leaving consumers in a precarious situation.

How do I avoid a crappy solar panel deal?

To avoid a crappy solar panel deal, watch out for these scammy sales tactics. Dealing with door-to-door salespeople is annoying, no matter what they're selling. But the solar industry is full of bad actors, with solar salespeople knocking at your door with misleading offers and overpromised savings.

Is DC Solar a Ponzi scheme?

The plan had many of the hallmarks of a classic Ponzi scheme, but with a twist. DC Solar wouldn't just defraud new buyers to pay earlier ones. By holding itself out as a legitimate solar company, it would give all of them--new and old--cover to drain millions of dollars of tax credits from the U.S. Treasury.
