What is a photovoltaic (PV) panel?

A photovoltaic (PV) panel is a device that generates electricity from sunlight. It is made up of individual solar cells. Each solar cell generates a small amount of electricity. When you connect many solar cells together, a solar panel is created that generates a substantial amount of electricity.

What are the white lines on photovoltaic modules?

The white lines on photovoltaic modules serve one of three important purposes, depending on whether they're the gaps, the fingers or the busbars. The gap lines are spaces between the solar cells, through which you can see the panel's white backing. The gaps are necessary to allow for thermal expansion of the cells when the panels heat in the sun.
