

Powder Games Solar Power Plant

What is the Powder Toy?

The Powder Toy lets you to do all of these, and even more! The Powder Toy is a free physics sandbox game, which simulates air pressure and velocity, heat, gravity and a countless number of interactions between different substances!

What's new in powder game?

Remake program of 'Powder Game' and introduced more realistic physical calculation. Since there are a wide variety of powders, please make scientific experiments and art works and play. Since we can upload and share the work data, let's see various works! Fluid dynamics game Supports full screen. User registration is required.

Is the Powder Toy free?

The Powder Toy is free and the source code is distributed under the GNU General Public License, so you can modify the game yourself or help with development. The Powder Toy is a desktop version of the classic 'falling sand' physics sandbox game, it simulates air pressure and velocity as well as heat!

Is the Powder Toy a good physics sandbox game?

The Powder Toy is a classic physics sandbox game, which simulates air pressure and velocity, heat, gravity and a countless number of interactions between different substances Very Positive (95) - 97% of the 95 user reviews in the last 30 days are positive. Overwhelmingly Positive (1,077) - 98% of the 1,077 user reviews for this game are positive.
