

Prefabricated photovoltaic sun room

Are prefab sunrooms better than custom-built?

Sunrooms are a great addition to homes and prefab sunrooms give an option that is cheaper than custom-built sunrooms. Sunrooms come as prefabricated kits, so they're easier to install than custom-built sunrooms.

Are DIY sunroom kits better than professional sunroom installation?

DIY sunroom kits are great for experienced craftsmen, but it's important to understand that screened porch kits do not have as many customizable options as our professionally installed sunrooms. Learn more about DIY Sunroom Kits vs. Professional Sunroom Installation. Order a Sample Kit

Why should you choose a custom-built sunroom?

Every sunroom is custom-built to fit the home it's installed on, ensuring a perfect match and an easy installation. Regardless of the sunroom package you pick, each sunroom comes with complete instructions and architectural drawings, as well as customer support from us if any issues arise.

Does a glazed sunroom add value?

In addition, the addition of a glazed structure adds to the property value. Residential sunrooms can be designed as small additions or large, free standing structures. All dimensions, shape, materials, and configurations are custom designed for each project.

Do you need a licensed contractor to build a sunroom?

If you are going to add a stick-built sunroom or enclose a patio, it's imperative to hire a licensed contractor or construction professional. There will be permits that need to be pulled, and the freedom to build anything also means there's an opportunity to make a mistake.
