

Price of JA Solar PV Panels in Vietnam

How much will JA Solar invest in Vietnam?

JA Solar says it has decided to invest around CNY 2.72 billion in 5 GW of N-type solar cell capacity in Vietnam. It said the project will be constructed within 10 months. This content is protected by copyright and may not be reused.

Where are JA Solar solar cells made?

On May 8, JA Solar's 3.5 GW factory in Vietnam produced its first solar cell, signifying the completion of the closed loop production of wafer, cells and modules in JA Solar's production base in Vietnam. With RMB 1.47 billion total investment, the cell fab is dedicated to large size high-efficiency silicon solar cells.

How much does a solar project cost in Vietnam?

Vietnam's Ministry of Industry and Trade (MIOT) recently introduced new ceiling prices for solar and wind projects that sell electricity to Electricity of Vietnam (EVN). The ceiling price for ground-mounted solar has been slashed from \$0.0709/kWh to \$0.0502/kWh, threatening the financial viability of large-scale solar projects.

How much money does JA Solar invest in Bac Giang?

Bac Giang's figure was \$1.92 billion, doubling year-on-year, the ministry added. China-based JA Solar, among the biggest solar energy cell firms in the world, has received approval to invest an additional \$378 million in an ongoing project in Vietnam's northern province of Bac Giang.

Will JA Solar expand its vertically integrated production capacity?

In February, JA Solar announced its plan to expand its vertically integrated production capacity by an additional 14 GW. This will include a 2.5 GW wafer slicing factory in Vietnam. On May 8, JA Solar's 3.5 GW factory in Vietnam produced its first solar cell, signifying the completion of the closed loop production of wafer, cells and modules.

What is JA Solar's production capacity?

The factory has a production capacity of 3.5 GW. Upon completion, it adds to JA Solar's existing capacity of 1.5 GW of silicon wafer and 3.5 GW of solar modules in Vietnam. Despite disruptions in logistics caused by the pandemic, the construction of the factory still completed.
