

# Price of solar panels on roof

How much does a solar roof cost?

The cost of solar roofing tiles is \$21 to \$40 per square foot installed or \$4 to \$14 per watt, depending on the brand, style, roof size and complexity, and kW needed. Solar shingles typically cost more than solar panels. \*Includes roof replacement. Before tax credits and incentives. Get free estimates from solar panel installers near you.

How much do solar panels cost per square foot?

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home. For example, the post-tax credit cost of solar panels for a 2,500-square-foot home is around \$20,000 for a rate of \$7.96 per square foot.

How much do Solar shingles cost?

These photovoltaic (PV) materials replace or overlay your current shingles, converting sunlight into electricity. Solar shingles are typically more expensive than standard panels, with costs ranging from \$15,000 to \$20,000 for an average installation, but they offer a more streamlined look and can increase the value of your home.

How much does a rooftop solar array cost?

According to the National Renewable Energy Laboratory (NREL), the average installation cost for a residential rooftop solar array alone is \$19,000. If the solar array is installed simultaneously with a new roof, the average is \$25,000. These costs can be mitigated, too.

Why do solar panels cost so much?

The more solar panels you install, the higher the installation cost because the process takes more time and labor. Depending on your location, the sales tax or hourly labor wage may be greater, increasing the total solar cost. Installation is one of the many factors that determine the overall price.

How much does a Tesla Solar Roof cost?

The Solar Roof includes both photovoltaic shingles and inactive shingles that look the same, providing a uniform appearance across the roof. A Tesla Powerwall costs \$11,500 installed on its own. Tesla's Solar Roof must be integrated with at least one Powerwall and can connect to up to ten units.
