

Purchase old photovoltaic panels

What are refurbished solar panels?

Refurbished solar panels are used solar panels that have been restored to an acceptable condition or standard by a refurbishing company or the manufacturer. Below, we've highlighted the main differences between used and refurbished solar panels to better aid you in making the right choice for your home and budget.

Do refurbished solar panels come with a warranty?

Refurbished: Some refurbished solar panels come with a refurbished warranty. These warranties have shorter coverage periods than new solar panels. Refurbished solar panel warranties range from three months to nine years. Some refurbished panels don't come with a warranty at all.

Are refurbished solar panels better than used?

Refurbished: Most refurbished solar panels can operate like new because some faulty or worn-out parts have been replaced. However, they don't usually last as long as a new panel. Used: Expect used solar panels to display some form of degraded performance. They may also break faster than a refurbished panel.
