

Radio and Television Network Causes WeChat Account Blocking

Why can't I unblock a wechat account?

For example, if the country code for the phone number used to register your WeChat account is the U.S. (+1), the country code for the phone number used for unblocking should also be the U.S. 8. Other reasons: If you are using an unofficial version of WeChat or an unsanctioned plug-in, the server will not be able to accept your unblock request.

Why is WeChat blocked?

Some of you need to promote your product or services on WeChat. So they will post many WeChat moments as many as they can. But if you do this, WeChat might think you're spam or annoy users. This could be blocked especially when someone reports you. 6. Do not use any unofficial App. You should download the App from the official channel.

What happens if I use a virtual number on WeChat?

Suspicious behavior. If you're using a virtual number to register successfully, your account will be blocked sooner or later. In that case, you should prepare for blocking or you can link your fixed (real) phone number to your WeChat account before it's being blocked. You will get more details on How to link/change your phone number to WeChat?

What happens if I log in to a new WeChat device?

For your account safety, if your WeChat account log in to a new device, WeChat will detect that and you will be requested to confirm your identity. So if you log in to the different device too frequently, WeChat might think it's an unnormal activity or your account has been hacked or you lost your phone and someone tries to log in your account. 4.

What if my WeChat account login is permanently restricted?

If account login is permanently restricted due to violation of the rules or another reasons, use your mobile device and follow the instructions to withdraw funds: Send us feedback if you cannot unblock the account by following these instructions. Copyright © 2012-2024 WeChat. All Rights Reserved.

Why is my WeChat not working?

The issue may be caused by one or more of the following reasons: 1. You're using WeChat downloaded from unofficial channels. 2. You're using an Android emulator (such as Bluestack, Andy, or Youwave) or other unofficial plugins to run WeChat. 3.
