

Raptor modified for solar power generation

Who makes the best 2024 Ford Raptor R performance upgrades?

Hennessey's Performance, the Texas-based hypercar manufacturer and high-performance vehicle creator, is the home of the best upgrades and modifications package for 2024 Ford Raptor Rs, the VelociRaptor's 1000. The 2024 Ford Raptor R performance modifications and upgrades boasts a mountainous 1,000 bhp.

Does the 2021-2022 Ford Raptor have AccessTUNER pro?

Some slight tweaks by Ford do allow the newer trucks to make a bit more power, something we certainly aren't complaining about. This initial launch of 2021-2022 Ford Raptor tuning includes a 50-State Legal Accessport and Off The Shelf (OTS) maps as well as Accesstuner Proto allow for custom tuning by any of our Authorized Protuners.

Does a Gen3 Raptor need a 'Torq-Snork'?

Enhance the durability and performance of your Gen3 Raptor with the COBB Intake Bracket, the 'Torq-Snork,' offering both structural support and increased power potential, making it a must-have for your Ford F150 mods.

What's new with the Gen3 Raptor?

For full details of each Performance Map, visit our Map Notes Page. One significant change to the Gen3 Raptor is the ECU/TCM configuration as they are now a combined unit, similar to the 2020+ F-150. One benefit of this is that the Accessport only needs to install onto one module instead of two, making installation time much quicker.

Can You tune a Gen3 Raptor?

We initially released tuning support for the Gen3's predecessor, the Gen2 Raptor, back in January of 2019. Much like the Gen2, the updated Gen3 is still powered by a 3.5L Twin-Turbocharged V6 EcoBoost engine and is prime for tuning.

What engine does a Gen2 F150 Raptor have?

YouTube COBB Tuning - Gen2 F-150 Raptor: Welcome to the FAMILY! The 2017-2020 Second Generation Ford Raptor features a twin-turbocharged EcoBoost V-6. This forced induction powerplant falls right into the COBB Tuning wheelhouse, so right off the bat we were excited to see what could be accomplished.
