

River beach solar power generation

Is Florida Power & Light expanding solar energy?

RIVIERA BEACH, Fla. -- Florida Power and Light is expanding solar energy. The company is installing nearly 18,000 solar panels at their new evolution hub right off I-95 in Riviera Beach. It will produce five megawatts, and it will feed into the main energy grid, making it a microgrid. "It will also charge the batteries and EV trailers on sight.

Why is Florida a national leader in solar energy?

"We are cementing Florida as a national leader in solar energy as we continue the largest solar buildout in the country - providing our customers with clean, reliable and affordable energy," said FPL Chairman and CEO Eric Silagy. "This is an important milestone for our communities, the economy and the environment.
