

Rooftop Solar Power System Wholesale

What is a solar panel kit?

A Solar Panel Kit is a pre-configured and designed system with all the necessary components for residential and commercial applications. Our complete solar energy systems are available in both roof-top and ground mount configurations, and can be customized to grid-tie or off-grid configurations if requested.

Should you install solar panels on your roof?

Rooftop solar panels are a great option to reduce your energy costs and environmental impact. Our selection of DIY roof mount solar panel kits offers flexible options for both grid-tied and off-grid systems. By installing solar panels directly on your roof, you can maximize your property's space.

What is solar wholesale?

Solar Wholesale has simplified the process of DIY Solar. Solar in a box kits were designed to save you time and money at the hardware store. Every component you need to install solar will be included, from drill bits to chalk line. To ensure you purchase the perfect DIY kit, every project is custom designed for your home and energy needs.

What is the strongest roof mounting system in solar?

Ironridge builds the strongest roof mounting system in solar. Every component has been tested to the limit and proven in extreme environments. Grid tie inverters convert DC to AC power from your solar panels and provide net metering capability. View and analyze your solar energy production in real-time.

What is a complete solar system kit?

Complete solar panel system kits that are the most energy-efficient and reliable on the market today. Solar packages include everything you need to get your residential system up and running. Simply determine your required energy use and select the solar kit that is right for your home.

Are ground mount solar panels worth it?

Ground mount solar panel kits for home are hefty and require unused land but are cost-effective and highly efficient for properties with south-facing roofs and optimal sun exposure. Ground mount solar systems are also lower maintenance -- no need to modify your rooftop.
