

Rooftop rental installation of photovoltaic panels

What is a solar rooftop installation?

Solar Rooftops installations provide energy directly to the grid to help LADWP meet the clean energy goals of Los Angeles and California. LADWP performs a home evaluation, issues permits, develops designs, and installs the SRP system at zero cost to customers.

Should you install solar panels on your roof?

Installing solar panels on your roof can both save you energy costs and reduce your home's environmental impact. Even though there are some DIY solar panel options, installing them is a highly complex project, and you'll still need assistance from an experienced professional.

How long does it take to install solar panels on a roof?

Installing ground-mounted solar systems requires special permits and allowances based on location, and the process can take from a few days to several months. Solar panels on roofs have ensured affordability and accessibility in solar energy usage. However, it is necessary to be aware of the precautions before installing. Here are a few:

What is a roof-mounted solar panel installation?

Roof-mount solar panel installations are less intrusive and invasive, and there is no need for extensive pre- and post-installation work or construction. Roof-mounted solar panels add aesthetic appeal and blend seamlessly with roofs, making them ideal for residential rooftop surfaces.

How do you maintain a rooftop solar system?

The maintenance of rooftop solar systems primarily involves cleaning the solar panels and inspecting the entire installation for damage or wear. Solar panels need regular cleaning to remove dirt, dust, and other debris such as bird droppings that can accumulate on their surfaces.

How do you choose a rooftop solar system?

A suitable roof should have adequate space, enough sunlight exposure, and be structurally strong for rooftop solar system installation. Experienced solar installers assess these factors using site evaluations and solar mapping tools to generate the best system size and design. How much does a rooftop solar system cost?
