

Saudi Arabia solar power plant planning

Does Saudi Arabia have a solar power plant?

The line's capacity was quadrupled within a year. Saudi Arabia's first solar power plant was commissioned on October 2, 2011, on Farasan Island. It is a 500 kW fixed tilt photovoltaic plant. Given that the cost of solar projects decreased by roughly 90 percent in the 2010s, petrostates in the Middle East have raised their ambitions.

Why is Saudi Arabia investing in solar energy?

Leveraging its abundant sunshine and vast desert areas, Saudi Arabia is now pivoting to solar energy, aligning with its Vision 2030 plan to diversify its economy and ensure sustainable growth by reducing oil dependency and investing in renewable energy.

Why is Saudi Arabia moving towards solar energy?

This move towards solar energy in Saudi Arabia is driven by a desire to reduce oil dependency, enhance economic stability amidst oil price fluctuations, and address environmental concerns by cutting carbon emissions, as highlighted by the Office of Energy Efficiency & Renewable Energy.

Will Saudi Arabia install solar power in 2030?

In March 2018 Saudi Arabia announced that together with Softbank they plan to install 200 GW of solar power through 2030. This compares to a global solar power installation of 100 GW in 2017 and a total installed capacity of 77 GW in Saudi Arabia in 2016. This project was cancelled in September 2018.

Is solar energy sustainable in Saudi Arabia?

The transition to solar energy in Saudi Arabia represents a multifaceted approach to sustainability, addressing the triple bottom line (TBL) of social, ecological, and economic aspects. Social Equity: The move towards solar energy is significantly enhancing social equity in Saudi Arabia.

Why is solar power important in Saudi Arabia?

Solar power in Saudi Arabia has become more important to the country as oil prices have risen. In 2021, 60.89% of energy consumed was produced by burning oil.

Inaugurated in 2021, the Sakaka Solar Power Plant in Al Jouf is the first of its kind under the Custodian of the Two Holy Mosques Renewable Energy Initiative, led by the Ministry of Energy. Using state-of-the-art photovoltaic technology, the ...
