

Solar Monitoring Phone Holder

How to use a solar phone case?

Place the solar phone case in the sun to collect energy. Adjust the back panel angle to get optimal sunlight levels. You can remove the case and charge it while using your phone. Wait 30-60 minutes for a quick solar recharge to power 1-2 hours of use. The case can be separated from your phone for remote charging nearby.

What is the best bike phone holder?

The Cyclotron is the ultimate bike phone holder with a built-in power bank. Designed for cyclists, bikers, and scooter riders, it securely attaches to handlebars, keeping your phone visible and fully charged throughout your journey. With a 5,000mAh battery, charge wirelessly or with your phone's cable on the go.

What is a cyclotron phone holder?

The Cyclotron is the first Phone Holder with Integrated Powerbank for bikes, motorcycles and electric scooters. It easily attaches to your handlebars so you can easily view your phone while riding, safely and keep it charged up during your whole trip.

What is a sunslice cyclotron phone cover?

This cover is designed to be lightweight and flexible enough to fit securely over the Cyclotron phone holder, while still allowing for full touchscreen functionality and portability, even in the rain. The sunslice Cyclotron is a specially designed phone mount for bikes and motorbikes.

What is a trianium magnetic car Mount phone holder?

Trianium Magnetic Dash Car Mount Phone Holder: It has a simple two-step setup and comes with extra adhesive so you can move it around if necessary, but it has a harder time sticking to textured dashboards. We installed the mounts in our cars -- and sometimes even a second car for additional testing -- and hit the road.

How low should a car phone holder be mounted?

We recommend mounting it as low as possible to provide an unimpeded view of the road ahead. WindshieldFone is the world's most versatile windshield-mounted car phone holder, designed to stay in-view and out of your way when you're on the road.
