

Solar PV Inverter Warranty Period

How long is a SolarEdge inverter warranty?

The SolarEdge inverter warranty is extendable to 20 or 25 years, depending on inverter model. We manage a rapid RMA process and generally ship a replacement unit within 48 hours, if the reported defect is eligible for coverage under the Limited Product Warranty.

Do solar inverters come with a warranty?

Most solar energy inverters have a 10- to 25-year warranty. Racking often comes with a 10- to 20-year warranty on material defects. If you add solar storage to your system, most solar batteries come with a separate 5- to 10-year warranty. However, you should always double-check with your manufacturer to confirm the specific terms of their coverage.

How long do inverter warranties last?

Inverter warranties vary by manufacturer and inverter type. String inverters typically come with 10-12 years of warranty coverage, whereas microinverters and power optimizers are often covered for 25 years.

How long does a solar panel warranty last?

A 25-year performance warranty is the industry standard for top-tier solar panel manufacturers. Material warranties can be shorter, and while 10 years is fairly typical, that number can vary by manufacturer. Here is a breakdown of the warranties provided by four of the top solar manufacturers: [What Can Void A Solar Panel Warranty?](#)

How long does a solar inverter last?

While the warranty terms for inverters themselves vary, warranties for communications equipment (which allow the inverter to connect to other devices like solar panels and battery systems) are typically capped at 5 years for both string inverters and microinverters.

What is a solar warranty?

A product warranty is often called a lifespan, equipment, or material warranty. The solar lifespan warranty covers the actual panels against defects, equipment failure, and environmental issues that may cause the panel to stop producing electricity.
