Why should you choose a solar dealership?

The industry offers a lot of opportunities: you can deal with a solar panel installation, distribution of related products or other types of solar energy services. If you choose to look for a solar dealership opportunities; you need to find a reliable partner.

How has solar energy changed over the last 10 years?

A main factor in the increased use of solar energy is a decrease in cost. Per SEIA, the cost to install solar has decreased by over 60% in the last 10 years, which has made solar prices more competitive with other power generation methods. However, by some estimates, only 1% of the potential solar market has been reached so far.

Is there a better time to buy solar than present?

Recent studies show that solar is breaking records and growing more than ever, accounting for 40% of all new electric generating capacity added to the grid last year--more than any other energy source and the highest share in Solar's history. There's no better time than now to get a piece of the \$50+ billion solar market.
