

Solar integrated bracket

Are integrarack solar roof brackets compatible with rail based systems?

IntegraRack Solar Systems manufactures a full line of class leading revolutionary super sealing solar roof brackets that are compatible with all rail based systems. All of our products are built to be stronger and faster than anything else on the market, and all of our products are backed by a full 25 year limited product warranty.

What is integrarack solar racking?

IntegraRack Solar Racking Systems are designed to make solar panel installation faster, easier, and more cost effective than ever before. All of IntegraRack Solar Racking products are manufactured out of our facilities in Las Vegas, Nevada and Utah.

How much uplift can a solar panel mount hold?

With this system, each bracket is capable of withstanding over 175lbs of uplift and transforms standard roof tiles into a larger foot ballast system for the solar module rails to attach directly to. One tube of IntegraGel Epoxy is good for up to ten mounts.

What is the ir-45 solar racking system?

The IR-45 is one of the most universal solar module ground mounting systems ever developed, and it was specifically designed to rack solar modules of any size, even 700 Watt jumbo size solar panels are no match for the IR-45 Racking System.

What is the most cost effective solar racking system?

The IR-30 is the most cost effective solar racking system on the market with its fast, easy installation and its ability to rack solar modules of any size.

Where are integrarack solar racks made?

All of IntegraRack Solar Racking products are manufactured out of our facilities in Las Vegas, Nevada and Utah. Our complete line of solar brackets and ground mount frames are corrosion resistant and rigorously lab tested and engineered for use in all 50 states by Phoenix National Laboratories.

FLEXRACK by Qcells is an integrated solar company that offers custom-designed, fixed-tilt ground mount and single-axis solar tracking systems in the commercial and utility-scale solar racking & mounting industries.

The metal mounting brackets started to rust almost immediately. After a few months, the rain water created a translucent film on the plastic solar panel. The batteries used to last 8 hrs. Now they barely last 4 hrs. Looking on ...
