

# Solar integrated lamp bracket

Why should you choose integrated solar street lights?

Integrated solar street lamp promotes safety for drivers as their illuminance is greater than traditional street lights. You can install them effectively on main roads, highways, rural roads, and roadways. Installation is very easy and price per street light unit is cheaper than other brands.

What is a solar street light?

All in one solar street lights integrate a monocrystalline solar panel, Phillips 5050 LED chips, and a long life LiFePo4 battery into a compact, reliable, and extremely bright package. This solar all in one street light, and solar parking lot light is an alternative to traditional solar lighting system design.

How does a solar street light work?

Integrated solar street light with Lithium Ferro Phosphate battery, solar panel and charger built into the luminaire. Independently tilt-able LED source and pole mounting bracket allows light beam to focus on road, and solar panel towards the sun. Microwave based motion sensor for optimizing battery autonomy.

What are the features of a Pole mounting bracket?

Specially designed pole mounting bracket allows different tilt angles, lateral and pole top mounting. Adjustable LED module for better distribution of light when required. Factory set dimming profile along with microwave sensor for run time maximization. Dimming can be configured at site with the help of configuration remote controller.

What are the features of a solar power system?

Independently tilt-able LED source and pole mounting bracket allows light beam to focus on road, and solar panel towards the sun. Microwave based motion sensor for optimizing battery autonomy. Replaceable Lithium Ferro Phosphate battery for long life and hassle free operations.

What are the standard features of a solar light?

Standard features are a standard dusk-to-dawn solar lighting option without dimming, optional adjustable timed control mode, and motion-activated human body sensor mode via our dual sensor technology. The time control mode includes an all-night sensor mode and a morning mode.

INLUX Solar, a leading all-in-one solar street light China supplier, develops eco-friendly brilliance of integrated all-in-one solar LED light technology. Suitable for various applications! ... They ...

Invigorate a beautiful and colorful look instantly to the walls in your home by HALO this Equivalent Solar Powered Outdoor Integrated LED Flood Light with Integrated Motion and D Sensor. ...

The corrosion-resistant construction features a stylish stainless steel finish that's built for long term use. The
