Should you lease or rent solar panels?

Leasing or renting solar panels is an increasingly popular option for homeowners who want to take advantage of solar energy without the significant upfront costs of purchasing a system. This approach allows you to benefit from clean, renewable energy while avoiding the responsibilities of system ownership and maintenance.

How much does a solar lease cost?

The short answer is, "it depends," but solar lease rates (also called "rents") typically range from \$250 to \$2,000 per acre, per year. This article looks at the factors that influence the rates a solar developer may offer for your land. Solar developers will only build solar farms in regions where there is a demand for solar energy.

What is a solar lease?

Solar leases are very similar to power purchase agreements (PPAs). With both options, a solar developer installs and owns the solar panels on your roof. The two differ in how you pay for the solar energy. Solar lease payments are the same every month, whereas solar PPA payments are based on the amount of energy the panels actually produce.

How much does a solar farm lease cost in the USA?

First of all, we discuss what solar farm lease rates in the USA are. Lease rates per acre can vary depending on the region in the USA but typically range from \$300-\$2,500 per acre annually. Are you considering leasing your land to a solar farm? If so, you may wonder about the lease rates.

Do you have to pay a solar lease payment?

But, you'll still have to pay your solar lease payment. Usually, the lease payment will be lower than what your utility bill was before installing solar. So, if your electric bill is \$150 per month, and your lease payment is \$100, you're saving \$50 per month with a solar lease.

How much does a solar system cost?

Over the last ten years, the cost of installing solar panels has decreased by over 40%, fueling growth across new markets and deploying thousands of systems across the country. The upfront price for an average-sized residential solar system has fallen from \$40,000 in 2010 to about \$25,000 today.
