

# Solar panels are free why

Does the federal government offer free solar panels?

The federal government does not provide free solar panels, but does provide incentives that reduce the cost of going solar. You can go solar with no upfront cost by taking out a \$0-down loan, signing a lease or PPA, or subscribing to a community solar farm. Of the no upfront cost solutions, \$0-down loans provide the best long-term savings.

Are 'free' solar panels a good idea?

Companies often offer "free" solar panels through leases or power purchase agreements (PPAs), where they install and maintain the panels at no upfront cost. "Free" solar panels can result in initial savings on your energy bills, but in the long run, the savings may not be as significant as owning your solar panels outright.

Can free solar panels bring you in on a deal of lifetime?

Sunlight is one of the most widely available resources on the planet. With recent investments and advances in solar energy technology, more Americans than ever before can harness the sun's rays and power up their homes and businesses. Riding this historic trend, some are even claiming they can bring you in on a deal of lifetime: free solar panels.

Should you install free solar panels on your property?

Installing "free" solar panels on your property comes with multiple nuances. While you may not incur upfront costs, you will still have to pay later. Here's how it works. Solar power is something everyone on the planet gets for free. However, the process of turning it into usable energy is expensive.

Can you get free solar panels from the government in 2024?

Advertising "free solar panels from the government" is one of the most common scams in the solar industry and has increased in prominence since the federal solar tax credit was increased and extended in August 2022.

Are there any "free solar panels from the government" scams?
