

Solar power generation film wholesale

Who is PowerFilm?

PowerFilm designs and manufactures custom solar cells, panels, and power solutions for energy harvesting, portable, and remote power applications using proprietary thin-film or high-efficiency crystalline PV technology. We develop high-quality custom solar solutions for IoT, transportation, military, and consumer applications.

Is PowerFilm a US based solar company?

Celebrating over thirty years in business, PowerFilm is proud to be one of the few US-based solar manufacturing companies operating today. The Soltronix brand brings PowerFilm expertise, innovation, and commitment to US-based semi-flexible crystalline silicon solutions.

What makes PowerFilm unique?

PowerFilm's proprietary manufacturing provides custom amorphous silicon panels that work in any light environment, including the indoor, industrial lighting of many IoT sensor applications. Celebrating over thirty years in business, PowerFilm is proud to be one of the few US-based solar manufacturing companies operating today.

What are 3M Solar Films?

From durable films that can replace glass to the adhesives that hold panels in place, 3M solar products are engineered to enhance performance and improve reliability. Our precision-coated, structured 3M Solar Films help increase module power, provide moisture protection, and improve the aesthetic of the module.
