

Solar power generation makes money but is cheated

Are people deceived by solar financing companies?

We don't want people deceived, though," says Adam Welle, a lawyer with the Minnesota Attorney General's Office who is pursuing a case against solar financing companies. Beyond the industry's reputation, real people - many of them already financially vulnerable - have been hurt.

How do solar companies make money?

An example is Mosaic, a U.S.-based company providing financing options for solar and energy-efficient home improvements. Each category of solar companies has distinct revenue streams. Let's delve into these: Manufacturers: They generate income through the sale of solar panels and other hardware to installers or direct-to-market.

Do utilities pay for solar panels?

In most states, utilities pay solar customers for power they send back to the grid. But there's a battle over what that sun-fueled energy is worth. Lynn Krell is unhappy with the reimbursements she gets from her utility company for having solar panels on her garage in Hattiesburg, Miss. Bryan Tarnowski for NBC News

Why are solar companies misrepresented?

Misrepresentations have spurred the ire of state AGs when solar companies exaggerate their systems' potential to save consumers money, despite financing that may end up costing the consumer more. Solar panel installer installing solar panels on roof of modern house. Eloi Omella via Getty Images

Are solar systems a cost-saving misrepresentation?

Costs and savings misrepresentations, in particular, have typically spurred the ire of state AGs when solar companies exaggerate their systems' potential to save consumers money, despite financing that may end up costing the consumer more.

Should solar energy bills be clarified?

Bear in mind that the "generation" value the utility lists on your bill is only the excess you backfed to them, not your solar system's total generation. It would help to have the values clarified- for a certain month, what was your home's consumption, energy production, and remaining utility usage?

How does a residential solar company -- like Sunrun, Freedom Forever, and Tesla Energy -- make money? Residential solar companies like Sunrun typically make most of their money from government rebate incentives and customer ...

Selling your solar energy to the utility doesn't make you money, but you can make some money by selling your SRECs. In addition to various incentives, such as the federal government's solar investment tax credit,
