Who makes custom solar panels?

Trust Sunwizeto manufacture and integrate custom-engineered solar modules for your portable industrial and electronics applications. We've been supplying custom off-grid and OEM specialty solar panels for over 15 years!

Can I make a solar panel in a custom shape?

Yes, it is possible to make a solar panel in a custom shape. At Voltaic, we manufacture custom and standard small solar panels and while most are rectangular, we have experience designing and deploying a full range of interesting shapes and sizes.

What is a custom solar panel design tool?

Because it can be difficult to explain all these options over the phone, in an email, or on a webpage, we developed a Custom Solar Panel Design Tool. Customers can use this tool to learn the basic anatomy of a solar panel, some of the customization options available, and create a custom solution that meets their needs.

How much does it cost to design a custom solar panel?

There are no design fees to create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending on the size of the panel.

Can I create a custom panel mount?

In addition to customizing the embedded screws or adding through holes, we offer the ability to create a custom panel mount for your specifications. This includes the design and manufacture of custom brackets, gaskets or VHB seals. Our standard wire has strain relief is about 12 inches long and terminates in a 3.5x1.1mm plug.
