

Solar power plant in Fukushima Japan

Japan's Fukushima Prefecture - hit hard by the 2011 Fukushima Daiichi nuclear disaster - could soon become a beacon for the country's clean energy future with a new \$2.75 billion project that ...

Fukushima Hydrogen Energy Research Field Solar PV Park is a 20MW solar PV power project. It is located in Fukushima, Japan. According to GlobalData, who tracks and profiles over ...

JUWI Shizen Energy has completed the construction of a 100MWp solar power plant in Fukushima City, Japan. The plant is expected to generate 107 million kWh of clean energy annually, powering approximately ...

The plant lies on 32 hectares of land located in Fukushima city, 80km northwest of the Fukushima nuclear plant. The 14.68MWdc power plant provides enough clean solar energy to power 6,000 average Japanese ...

The plant will sell its output to Japanese electric utility Tohoku Electric Power Network Co Inc, according to the company's press release. In addition to this solar facility, the partners have put into operation the 44-MW ...

The road back for nuclear power was built on actions taken at the national and international levels to share factual information on the real impact of the Fukushima Daiichi accident and further strengthen nuclear safety, ...

Its planned addition of renewables, which will consist of 11 new solar plants and 10 new wind farms on land contaminated by radiation, will propel the prefecture toward its energy targets and...

Solar panels power a hydrogen energy research center in the town of Namie in Fukushima prefecture, Japan. ... The Daiichi nuclear power plant in Fukushima, Japan, was knocked out by a tsunami in ...

Coming at a total project cost of approximately 22 billion yen, Minamisoma Mano-Migita-Ebi Solar Power Plant is the largest solar power plant in Fukushima Prefecture and among the largest in the Tohoku region. It is what is termed a ...

A solar farm is set up in Aizuwakamatsu, a city in Fukushima Prefecture, which has embraced the post-disaster call for renewable energy. Individuals jumped in to build smaller, local operations...

First Solar Japan and Toshiba Energy Systems & Solutions Corporation (hereinafter "Toshiba ESS") has signed a contract to construct two mega solar projects, Yatsubo Solar Power Plant and Ikeda Solar Power Plant ...

Solar power plant in Fukushima Japan

Coming at a total project cost of approximately 22 billion yen, Minamisoma Mano-Migita-Ebi Solar Power Plant is the largest solar power plant in Fukushima Prefecture and among the largest in ...
