

Solar power system installation free of charge

Are solar panels free?

The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant solar panels for free to customers.

Does the government provide free solar panels?

The government does not provide free solar panels directly to individuals. However, various government incentives and programs can significantly reduce the expense of installing solar panels on your property.

Are "free" solar panels a scam?

However, it's important to note that "free" solar panels are not always a scam, but they do require careful consideration. These "free" solar panels are typically offered through solar panel leases or power purchase agreements (PPAs), which allow individuals to install solar panels without the high expense.

Do you own solar panels with a "no cost solar" agreement?

You will not own the solar panels with one of these "no cost solar" agreements. In other words, solar leases are essentially like renting solar panels. The solar company handles all of the installation and maintenance for a specified term, which is usually around 20 to 25 years.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

Do you pay for solar panels?

Technically, you don't pay for the solar panels in either arrangement - but that's because you don't own them. However, you do pay for the electricity they produce, which can add up to more than the cost of a solar system over time.

In addition, the solar charge controller prevents power from back-flowing from the battery back to the solar panels, which can also damage your solar system. [Looking For Hassle-Free Solar Installation](#)
