From grid-tie to off-grid, residential to commercial, we provide tailored solar solutions to meet your specific energy requirements .

Why do you need a solar energy equipment supplier?

When it comes to keeping your margins wide while increasing your customer satisfaction, your solar energy equipment supplier is a significant factor. Don't get left behind your competition, choose Zonna to supply your equipment. Our low costs, quick shipping, and expert advice will keep you and your customers smiling from one job to the next.

What warranties do solar companies offer?

Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies. For example, most solar companies and vendors offer 25-year warranties for solar panel performance and factory defects.

Does SolarFeeds offer escrow services?

No, SolarFeeds.com currently doesn't offer escrow services. Buyers pay suppliers based on their criteria. How does SolarFeeds.com differ from EnergyBin?

Can a solar array be installed on a building?

You can drastically lower the cost of your system by using your roofing contractor to install the solar array supports on your underlying building structure. They will seal the supports and warranty their installation for any leaking. Then it's easy to install the array on the supports with your facilities staff or a local electrician.

Do you have mobilization funding for EPCs & solar developers?

For EPCs and solar developers, we have mobilization funding (about 20% of the project cost) for a limited number of eligible projects in the USA. Our PPA includes the main solar equipment so you can use your funding on other key project areas like engineering, BoS, and payroll.
