

Solar support iron

What makes ironridge the strongest roof mounting system in solar?

IronRidge builds the strongest roof mounting system in solar. Every component has been tested to the limit and proven in extreme environments. Our rigorous approach has led to unique structural features, such as curved rails and reinforced flashings, and is also why our products are fully certified, code compliant and backed by a 20-year warranty.

What makes the ironridge solar powered flush mount system unique?

Every component in the IronRidge Solar Powered Flush Mount System has been tested to the limit and proven in extreme environments: rain, wind and snow. IronRidge's rigorous approach has led to unique structural features, such as curved rails, universal fastening objects and reinforced flashings.

Which solar racking system is right for You?

But harnessing this power requires a sturdy foundation - a reliable solar racking system. Two prominent names in this arena are IronRidge and Blue Pacific Solar, offering both pre-built and DIY options for securing your solar panels to the roof. IronRidge boasts a reputation for robust and adaptable mounting systems.

Why should you choose ironridge for your solar project?

Their comprehensive online design tool empowers precise solar project planning for optimal energy capture. Maximize your solar investment with Ironridge, where clean energy meets roof integrity. After you purchase, we will contact you for your specific layout and order the specific parts for your configuration.

What hardware does ironridge use?

All hardware is designed for single-tool installs, low profiles, and in support of our UL 2703 listings: Grounding Lugs, T-bolts, Square-bolts and MI kits. Built for solar's toughest roofs. Every component in the IronRidge Flush Mount System has been tested to the limit and proven in extreme environments: rain, wind, and snow.

What support does ironridge provide?

In addition to this document, IronRidge provides a complete system of technical support including installation guides, pre-stamped certification letters for most PV-friendly states, our online Design Assistant software, and live, knowledgeable person-to-person customer service.
