The trajectory of Suports in the sector for more than 17 years,combined with its engineering capabilities and organizational strength,positions it as a leader in the solar industry. Suports is a brand within Solar Steel,solar division of Gonvarri Industries.

Can I use PV panels & flashings based on copper?

Avoidusing PV panels or flashings made from materials such as copper,or alloys containing copper or lead. This has the potential to create bi-metallic corrosion resulting from water run-off onto COLORSTEEL® or ZINCALUME® steel. Refer to Incompatible Materials.
