State Grid Wang Haibo s Weibo

(DOI: 10.1109/ICICSP48821.2019.8958560) Targeted at power grid communication networks, we explain the concept of vertical and horizontal slicing, introduce the slicing enabler technologies ...

Weibo Hua currently works at the Institute of Applied Materials, Karlsruhe Institute of Technology. Weibo does research in Nanotechnology, Materials Chemistry and Electrochemistry. His ...

Yao Wang's 36 research works with 34 citations and 400 reads, including: Optimal Configuration Model of Energy Storage System and Renewable Energy Based on a high proportion of ...

Haibo Wang"s 164 research works with 3,997 citations and 3,768 reads, including: Synergistic effect of 8-HQ@CeO2 for enhanced corrosion resistance of self-healing polyurethane coating ...

The comprehensive results indicate that this high-voltage new NASICON-type Na 3 V(PO 3) 3 N composite can be considered as a competitive candidate cathode material for sodium-ion ...
