

Sun Chaser Photovoltaic Solar Support

What is a sun chaser solar panel?

The Sun Chaser is an energy-harvesting system that automatically orients a solar panel to face the sun. Photo 1: The Sun Chaser's stepper motor controls the solar panel's "tilting."

Is the SunChaser 8 a good solar tracker?

This is not one of the toys that hold a few panels and disappear in the first bad weather event. The SunChaser 8 is a genuine commercial product, and has been installed in major solar generation farms around the world. Most solar trackers of this size need to have a crane on site to complete installation.

Who is SunChaser?

SunChaser is a company founded by Brandon, who saw an opportunity to start his own solar business in San Diego County over a decade ago. The name SunChaser has become synonymous with solar pool and water heating in the area.

Is SunChaser a good company?

SunChaser, Inc. is considered a great company in San Diego County for solar pool and water heating. They were honest, down to earth, very reasonable, and responsive. The solar system installed by SunChaser works great.

Who manufactures SunChaser solar water heaters?

SunChaser proudly installs SunEarth solar water heaters, which have been made in the USA since 1978. SunEarth is one of the most experienced solar thermal manufacturers in the world and has designed and built industry-leading solar products since then. We believe that quality work starts with quality products and materials.
