

The best company in the field of photovoltaic panels

What is the best solar company for whole-home automation?

Our pick for the best solar company for whole-home automation is Elevation Solar. The company started in 2015 and currently operates in five states. With a score of 4.0 out of five stars and a BBB rating of A+, Elevation Solar offers more services than just solar panel installations. Mobile App? Free Energy Consultation?

Is smartflower a good choice for solar panels?

Smartflower looks like a solar sunflower and might be a beautiful way to install solar panels, but unless you're trying to advertise your green commitments or find a statement piece for your yard, it's likely too much money for too little solar.

Is qcells a good solar panel company?

Qcells is more of a solar panel manufacturer than a solar panel installer, but representatives for the company will connect you with installers that work with Qcells' products. The company doesn't offer the same guarantees or policies most of the installers on this list have, so it doesn't get a score.

Should you choose a TPO or a rooftop solar system?

If you go with a TPO option, ask the solar company how it passes on tax credit and incentive savings to the customer. The value of a rooftop solar system depends, of course, on what you value. If your primary goal is lowering your carbon emissions, do a little research on how clean your grid electricity already is.
