

The best photovoltaic panels from Canadian Solar

What types of solar panels are available in Canada?

Much like the residential range, the most popular commercial panels from Canadian Solar are the Ku and HiKu series which are also available in both polycrystalline and monocrystalline varieties.

Are Canadian solar panels a good choice?

Though Canadian Solar panels offer a good price, they have lower efficiencies than other modules on the market. With an average efficiency rating of 16.6% across their product line, their efficiency is lower than many of Panasonic or Sunpower's offerings.

Does Canadian Solar offer bifacial solar panels?

For commercial and industrial markets, Canadian also offers a bifacial solar module called the BiHiKu. For residential use in the United States, Canadian Solar offers three main solar panel module series: HiKu, HiKu6, and HiKuBlack. Here's some information about each of these products: Canadian's HiKu solar panels are their stock-standard offering.
