

The role of the wind deflector of a hydro-turbine generator

The design of a novel vertical-axis small water turbine generator for installation in a pipeline is the primary purpose of this research. ... The higher the wind turbine efficiency is, ...

This paper gives an overview of a vertical axis wind turbine. The behaviour of the Vertical Axis Wind Turbine (VAWT), present technological state, new finding through modelling work and future ...

The role of the wind deflector of a hydro-turbine generator
