

# The secret of the photovoltaic panel contracting scam

How do you identify a solar panel company to avoid scams?

These tactics may include persistent calls, scare tactics, door-to-door visits, or making unfounded claims about solar benefits. Companies employing such methods prioritize sales over delivering quality service. These are the red flags to identify solar panel companies to avoid scams. Also See: Do You Still Have an Electric Bill With Solar Panels?

How many complaints have been filed with BBB about solar energy companies?

People filed roughly 13,000 complaints with BBB last year about solar energy companies including contractors, equipment dealers and installers. The St. Louis Consumer Fraud Task Force warned about misleading solar sales last year. Remember: Well-intentioned companies will give you time to consider their offer.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

Are salespeople flouting the solar tax credit?

Going in with a strong understanding of some key solar topics can help you spot when a salesperson is flouting those guidelines. Salespeople are likely to tout the federal solar tax credit. When you install solar panels (and certain other related technology) you receive a portion of the cost back on your taxes.
