

The state releases new energy storage

Will New York State become a major hub for energy storage?

Dr. M. Stanley Whittingham, Distinguished Professor at Binghamton University and Nobel Laureate in Chemistry for his development of lithium-ion batteries, said, "The new Energy Storage Roadmap released today will further bolster New York State as a major hub for the energy storage industry."

How much energy storage does New York have in 2024?

As of April 1, 2024, New York has awarded about \$200 million to support approximately 396 megawatts of operating energy storage in the state. There are more than 581 megawatts of additional energy storage under contract with the State and moving towards commercial operation.

Will New York's nascent energy storage industry play a vital role?

Kyle Rabin of the Alliance for Clean Energy New York said, "New York's nascent energy storage industry must play a vital role in New York's clean energy transition, and we welcome this proposal for supporting industry growth."

What does energy storage mean for New York Power Authority?

New York Power Authority President and CEO Justin E. Driscoll said, "Energy storage represents an innovative technology that will help advance New York's nation-leading clean energy goals and is expected to have a broad impact in our transition to a decarbonized electric system."

Why are battery energy storage sites important in New York?

New York State Division of Homeland Security and Emergency Services Commissioner Jackie Bray said, "Battery energy storage sites are crucial to reduce our dependency on fossil fuels and secure New York's clean energy future."

Will energy storage improve air quality in New York State?

Doreen M. Harris, President and CEO, NYSERDA said, "Accelerating the adoption of energy storage across the state will allow more wind and solar energy to be integrated into our electric grid, while improving air quality for many communities historically impacted by fossil fuel-generated pollution."

BALTIMORE, Jan. 18, 2022 /PRNewswire/ -- CPower Energy Management ("CPower"), a leading, national energy solutions provider, today applauded the launch of Connecticut's new Energy ...
