

Today s price of JA Solar panels

How much do JA Solar panels cost?

The cost of solar panels from JA Solar is quite competitive compared with other solar panel companies. Our research has found that a 585W panel, for instance, is priced at around \$90. Sharp sells a similar model for around \$40 more. However, JA Solar's product warranties only last 12 years - half that of many other manufacturers.

Is JA Solar a good brand?

JA Solar is considered a high-efficiency budget brand, so while the panels have good performance, the cost per watt is still below what most competitors charge. Temperature Coefficient (10%): The temperature coefficient of a panel tells you how much of the panel's efficiency is lost per degree over 77 degrees (F).

What is the efficiency of JA Solar panels?

The efficiency of JA Solar panels usually hovers between 20% and 21%, which is above average on the market. JA Solar engineers implement most of the popular modern solar technologies, like half-cut cell construction, PERC cell technology and busbars. When it comes to price, JA Solar is on the cheaper side of the market.

Who is JA Solar panels company?

JA Solar Panels Company is one of the largest solar cell manufacturers in the world. Its head office is located in Beijing (China). JA Solar Panels Company panels are widely used in Pakistan, in both residential and commercial areas. They are famous for their high performance and are also a popular choice among Pakistani consumers.

Are JA Solar panels good?

The reviews for JA panels are generally pretty positive, with customers specifically mentioning that the solar production was equal to or better than what they expected. This is unsurprising, seeing as JA panels have above-average efficiency ratings. Additionally, customers comment regularly on the overall quality for the money.

What type of solar panels does JA Solar use?

JA Solar uses mostly monocrystalline solar panels and half-cut cells, which are more durable, reliable and efficient than polycrystalline (poly) solar panels. Most models also include multi busbars (MBB) to reduce the risk of hotspots and improve overall performance. These are common in many brands, though.

While the national median price for solar panels stands at approximately \$2.66 per watt, JA's peers with similar efficiency benchmarks, such as REC, LONGi, Trina Solar, and Canadian Solar, typically have prices closer to \$3.00 per watt.
