

Trina 330 photovoltaic panels

What are Trina Solar panels 330W?

TSM-330-DD06M.05 (II) -0/5W, 9 busbar half cut Mono PERC module. B/B w/ 1200mm cables and MC4 Connectors The Honey Black series has a completely black design. Cell colors, back foil and frame are kept completely black. Partly because of this appealing aesthetics, Trina Solar panels 330w are very popular with both commercial and home owners.

Which Trina Solar panels are best?

The Honey Series is the most popular from Trina Solar, offering a combination of performance, quality, and value for money. The panel is available in both monocrystalline and multi-crystalline cells with 120 half-cut cells, perfect for small rooftops.

What is the warranty on the Trina 330W solar panel?

Find more information about harsh weather resistance in the Trina 330W spec sheet. Trina 330W solar panel comes with a 12 year warranty which can be extended and a 25 year Linear Performance Warranty. Got my order. Everything is working perfectly and my home is running on strictly PV power!

Does Trina Solar have a warranty?

Trina Solar offers 15 years of product warranty and guarantees 92% of original performance after 25 years of operation. An already high efficiency of 19.6% is further enhanced by PERC technology. By adding a solid PID resistance and special glass lamination on top, the manufacturer ended up with an efficient and very durable model.

What are the advantages of TSM 330 solar panels?

Another advantage is the half-cut cell technology. TSM 330 has solar cells half the size of those installed in conventional panels. The main benefits are decreased power loss, improved longevity and better low-light performance. Given its size and weight, TSM 330 efficiency of 19.6% is quite impressive.

Maximize limited space with up to 199 W/m² power density, according to Trina solar 330 datasheet; Ultra-thin, virtually invisible busbars; Half-cut cell design brings higher efficiency. Low thermal coefficients for higher energy yield at ...

Available with both monocrystalline and multicrystalline cells, the Trina Honey solar panel with 120 half-cut cells is perfect for small rooftop systems. All panels in the Honey Series come with Trina's 12-year product ...

Reduce BOS cost with high power bin and module efficiency. New cell string layout and split J-box location reduces the energy loss caused by inter-row shading. Lower resistance of half-cut cells and increased MBB (Multi Busbar) ...

Trina 330 photovoltaic panels

Trina 330 Watt 120 Cell HONEY Solar Panel - TSM-330DD06M.08(II) Sold out. 5000+ Sold \$ 277.00 *GST Included. Stock Code 80248 Product Categories Panels, 35mm, Black Frame, Monocrystalline Brand: Trina Solar. Warranty ...

Trina Solar's products have always maintained high reliability and solid performance based on rigorous raw material selection and full value chain control of the production line. With the high ...

Rated above 270W per panel at the same size as many 250W panels, Trina Honey panels are a great way to maximise power output from the same roof surface area. Equally as important is ...

Trina Solar Panel 330 watt Poly Crystalline Solar Panel 72 Cell Multi Crystalline Module 17.5% Maximum Efficiency High power footprint reduces installation time and BOS costs 5 Busbar ...

High Power Output - Reduce BOS cost with high power bin and module efficiency. New cell string layout and split junction box location reduces the energy loss caused by inter-row shading. Lower resistance of half-cut cells ...

Trina Solar TSM-330-DD06M.05(II) 330W Solar Panel Module, Half Cut Mono Per, Black Frame Black Backsheet Manufacturer: Trina Solar Energy Ltd | Catalog # TSM-330-DD06M.05(II) | ...
